Docket No. 1005.7  
Customer No. 53953

**Amendments to the Claims**

The following listing of claims will replace all prior versions, and listings, of claims in the application.

1. (Currently amended) A method performed by a computer system, comprising:  
storing an electronic version of a paper, wherein the electronic version is displayable on a display device as a likeness of the paper; and  
detecting content of a first portion of the likeness; and  
after the detecting of the content, and in response thereto to content of a first portion of the likeness, forming a hyperlink reference and embedding the hyperlink reference within the first portion of the likeness, wherein the hyperlink reference is associated with a second portion of the likeness, such that when the first portion of the likeness is displayed on the display device, at least a portion of the content is selectable by a user to cause the computer system to display the second portion of the likeness on the display device, and wherein the content is at least one of the following: a term that indicates a location at which the second portion of the likeness is located within the paper; and a phrase that indicates the location.

8. (Currently amended) A system, comprising:  
a computing device for:  
storing an electronic version of a paper, wherein the electronic version is  
displayable on a display device as a likeness of the paper; and  
detecting content of a first portion of the likeness; and  
after the detecting of the content, and in response thereto to content of a first  
portion of the likeness, forming a hyperlink reference and embedding  
the hyperlink reference within the first portion of the likeness, wherein  
the hyperlink reference is associated with a second portion of the  
likeness, such that when the first portion of the likeness is displayed on  
the display device, at least a portion of the content is selectable by a  
user to cause the computing device to display the second portion of the  
likeness on the display device, and wherein the content is at least one  
of the following: a term that indicates a location at which the second  
portion of the likeness is located within the paper; and a phrase that  
indicates the location.

15. (Currently amended) A computer program product stored on a tangible computer-readable medium, comprising:
  - a computer program processable by a computer system for causing the computer system to:
    - store an electronic version of a paper, wherein the electronic version is displayable on a display device as a likeness of the paper; and
    - detecting content of a first portion of the likeness; and
    - after the detecting of the content, and in response thereto-to-content-of-a-first-portion-of-the-likeness, form a hyperlink reference and embed the hyperlink reference within the first portion of the likeness, wherein the hyperlink reference is associated with a second portion of the likeness, such that when the first portion of the likeness is displayed on the display device, at least a portion of the content is selectable by a user to cause the computer system to display the second portion of the likeness on the display device, and wherein the content is at least one of the following: a term that indicates a location at which the second portion of the likeness is located within the paper; and a phrase that indicates the location.

24. (Cancelled).

25. (Previously presented) The method of claim 1, wherein the content is at least one of the following: a term that indicates a page of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page.

26. (Previously presented) The method of claim 1, wherein the content is at least one of the following: a term that indicates a page number of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page number.

27. (Previously presented) The method of claim 1, wherein the content is at least one of the following: a term that indicates a title of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the title.

28. (Previously presented) The method of claim 1, wherein the paper is at least one of the following: a newspaper; a magazine; and a journal.

29. (Previously presented) The method of Claim 1, wherein the electronic version is a first electronic version of the paper, and comprising:

translating a second electronic version of the paper into the first electronic version.

30. (Previously presented) The method of Claim 1, and comprising:  
highlighting the hyperlink reference.

31. (Cancelled).

32. (Cancelled).

33. (Previously presented) The system of claim 8, wherein the content is at least one of the following: a term that indicates a page of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page.

34. (Previously presented) The system of claim 8, wherein the content is at least one of the following: a term that indicates a page number of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page number.

35. (Previously presented) The system of claim 8, wherein the content is at least one of the following: a term that indicates a title of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the title.

36. (Previously presented) The system of claim 8, wherein the paper is at least one of the following: a newspaper; a magazine; and a journal.

37. (Previously presented) The system of Claim 8, wherein the electronic version is a first electronic version of the paper, and wherein the computing device is for:

translating a second electronic version of the paper into the first electronic version.

38. (Previously presented) The system of Claim 8, wherein the computing device is for:

highlighting the hyperlink reference.

39. (Cancelled).

40. (Cancelled).

41. (Previously presented) The computer program product of claim 15, wherein the content is at least one of the following: a term that indicates a page of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page.

42. (Previously presented) The computer program product of claim 15, wherein the content is at least one of the following: a term that indicates a page number of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page number.
